

Name - Success with us Driving School

Location - Santa Clara, California

Project overview

Key Features

1. Student Registration & Profile Management

- Simple online registration form.
- Students can manage their profiles (personal info, license status, progress tracking).
- Digital storage for required documents (e.g., learner's permit).

2. Appointment & Scheduling System

- Students can book driving lessons directly from the website.
- Calendar integration for easy scheduling.
- Automated reminders (email/SMS) for upcoming lessons.
- Instructors can manage their availability and assigned lessons.
- Students can select from different plans

3. Online Lessons & Learning Resources

- Video tutorials and study material for permit test preparation.
- Practice quizzes for the DMV written exam.
- Option to schedule virtual lessons for theory classes.

4. DMV Behind-the-Wheel Test Assistance

- Students can book sessions specifically for behind-the-wheel DMV test preparation.

- Guidance on paperwork, test routes, and scheduling the DMV appointment.
- Dedicated resources to prepare students for passing on their first attempt.

11. Plans And credit system for scheduling

- Students can select different plans and proceed to pay
 - 5 different plans
 - Advanced 10 Hours 650\$
 - Most Popular 8 Hours 560\$
 - Preferred 6 Hours 420\$
 - Basic1 4 hours 300\$
 - Basic2 2 hours 160\$
- Once student enrolls in a plan he is credited with credits(per hours in plan)
- Credits can be shown in the student dashboard
- Once the schedule appointment is completed instructor can trigger a button which will subtract the credits from the student credits
- Cancellation if the student cancels before 24 hours there are no charges, but if the student cancels within 24 hours 50% of the credit will be deducted

5. Payment Gateway Integration

- Secure online payment options (credit/debit card, PayPal, Stripe).
- Students can pay per lesson or purchase packages.
- Automated invoices and receipts.

6. Instructor Management

- Admin dashboard to manage instructors, schedules, and assignments.
- Instructor profiles with experience and ratings.
- Students can request specific instructors if available.

7. Review & Rating System

- Students can leave reviews after lessons.
- Ratings for instructors and overall school performance.
- Public reviews to boost credibility and attract new students.

8. AI Chatbot for 24/7 Support

- AI-powered chatbot integrated into the site.
- Handles FAQs like lesson pricing, scheduling, DMV requirements, and policies.
- Provides quick answers and reduces call center load.

9. Mobile-Friendly & Responsive Design

- Accessible on desktop, tablet, and mobile devices.
- Smooth user experience across all platforms.

10. Admin Dashboard

- Track all bookings, payments, and student progress in one place.
- Manage instructors, courses, and content.
- Data analytics on bookings, revenue, and student success rates.

11. Careers/Hiring

- Admins can post jobs for instructors with a simple form for first name, last name, email, phone, CV(pdf file)

Additional Value-Added Features

- **Gift Cards & Referral Discounts:** Encourage new sign-ups.
- **Push Notifications:** For reminders and special offers.
- **Progress Tracking:** Students can see how many lessons they've completed and what's left.
- **Multi-language Support:** Option for English and Spanish to serve a wider audience in San Jose.
- **Marketing Tools:** Basic SEO setup and social media integration for better visibility.

Benefits for Your Driving School

- **Increased Bookings:** Easy scheduling and online payments make it more convenient for students to sign up.
- **Operational Efficiency:** Centralized admin dashboard reduces manual work.
- **Customer Retention:** AI chatbot and reminders improve student experience.
- **Competitive Advantage:** A modern, feature-rich platform sets your driving school apart from competitors.
